

Uptown Construction Update
August 3, 2018

Post Oak Boulevard – North Segment Construction / 610 to San Felipe

- Paving for the median transit lanes continues from San Felipe to 610 West Loop
- Pavers for the new sidewalks continue to be installed on the southbound side
- Installation of sidewalk components along the northbound side continues from Garretson to 610 West Loop
- Installation of trees on the northbound and southbound sides of Post Oak Boulevard is nearing completion

Post Oak Boulevard – Middle Segment Construction / San Felipe to Westheimer

- Pavers for the new sidewalks continue to be installed on southbound side from Ambassador Way to San Felipe
- Paving for the median transit lanes continues from San Felipe southward
- Back of curb work, including pedestrian and holiday light foundations, continues in preparation for new sidewalks in the northbound lanes at various locations

Post Oak Boulevard – South Segment Construction / Westheimer to Richmond

- Installation of base and pavement for dedicated transit lanes continues in various locations
- Continue installation of storm crossings and inlets from Westheimer to Fairdale
- Paving of northbound lanes at Westheimer intersection nearing completion
- Continue installation of electrical conduit and lighting on the southbound side from Fairdale to Parkview
- Installation of new live oak trees south of West Alabama will continue on the southbound side

CenterPoint, AT&T and other contractors continue the adjustment and relocation work in the area.

All work subject to change based on weather conditions and utility conflicts.
