

Uptown Construction Update
July 14, 2017

Post Oak Boulevard – South, Middle, and North Segments

- Construction is continuing along the east side of Post Oak Boulevard for the installation of the sanitary sewer line from West Alabama going south.
- Contractor is preparing the subgrade to place the new pavement for the future northbound lanes in the vicinity of Hidalgo Pond.
- The temporary traffic signal at Fairdale was made operational.
- Work continues to progress between Westheimer and Ambassador Way with a focus on the 42-inch sanitary sewer installation and the placement of the future southbound lanes between Locke Lane and Westheimer
- The water line along the east side of Post Oak Boulevard has now been installed from San Felipe to south of Garrettson.
- Pavement restoration of the future southbound lanes is underway immediately north of San Felipe.

All work subject to change based on weather conditions and utility conflicts.
